Action points from last report	
Comment on progress made in relation to essential action points given in previous reports, indicating specifically any that have not been adequately addressed	
No previous actions as this is the first standards verification activity	N/A

Areas of good practice
Identify any areas of particularly good practice <u>not mentioned</u> in other sections of this report
No further areas of particularly good practice to mention, that have not been included in other sections of this report.

General comments
Mention any points you wish to make that are not otherwise covered in the report, including: <ul style="list-style-type: none"> a) comments on programme administration b) communication with the centre c) access to material needed to carry out standards verification d) issues arising during your visit that have affected your report
<ul style="list-style-type: none"> a) BTEC programme administration for the qualification covered within this report is overseen by the centre's Quality Nominee. b) Communication with the centre via both the outgoing and incoming Quality Nominee has been

excellent.

- c) Standards verification sampling took place remotely. All requested learner work and documentation was sent electronically via four zip folders (one for each unit) attached to email ahead of the remote visit day. The Interpreter had access to all materials in a mix of both paper and electronic form on the actual day itself which could be seen via the camera in use during the remote working day. The Educational Supervisor was able to identify during the remote visit where requested evidence could be found. The Educational Supervisor verbally translated requested sections from Arabic into English, all of which was extremely easy to follow.
- d) No issues arose during remote standards verification activity.

5.9 Accurate documented feedback is given to learners	Yes
5.10 Standardisation of Assessor decisions happens where there is more than one Assessor per unit	N/A
5.11 The assessment of learners who are learning at a distance is accurate	N/A

Your comments:

5.1 It was clear from both the assignment briefs and learner work sampled, that the centre is using a range of appropriate assessment methods. For all four units (1, 2, 3, 4) sampled, the centre had correctly made use of the Pearson Set Assignments. For each unit, version 1 of the Pearson Set Assignment was used. For Unit 1, learners were required to produce a presentation with detailed speaker notes and a report. Unit 2 required learners to produce two separate reports. Unit 3 required learners to produce three separate reports, with an annotated break-even chart and a six-month cash flow forecast also included. Unit 4 required learners to produce a presentation.

5.2 There was no evidence of plagiarism within the sampled assignments with the sole Assessor also confirming on each completed assessment record sheet, via a physical signature, that the work was the learner's own. The centre advised that all work on each of the four Pearson Set Assignments had been completed by all learners in a school laboratory which houses PCs for learners to work on. It was explained that all work on learner's formal assessments is only carried out in school in front of the teacher, who closely monitors what each learner is doing. The centre explained that learners have been taught about plagiarism and how to reference and use citation in their work where other sources are used.

5.3 For all sampled learners, an appropriate learner declaration had been captured on a form the centre had created for each learner for each unit assignment submitted. Each signature was via a physical signature. The centre is advised that the Pearson assessment record sheet can also be used to capture learner declarations with dedicated space for these.

5.4 The Pearson Set Assignments for Units 1, 2, 3 and 4 were reviewed as part of this sample. The centre confirmed that each was securely delivered, with the necessary defined degree of control. They advised that each Pearson Set Assignment is sent electronically to the centre's Quality Nominee from the Jordanian Ministry of Education. It was explained that each is printed off by the Quality

Nominee with sufficient copies for each learner, with these being issued to learners by the Assessor at the relevant time. As explained in section 5.2 above, all work by each learner towards each Pearson Set Assignment had been completed in a computer laboratory, where the sole assessing teacher was able to closely monitor what each learner was doing.

5.5 This sample did not include any units where Pearson authorised assignment briefs could be used.

5.6 This sample did not include any units where Pearson authorised assignment briefs could be used.

5.7 As Pearson Set Assignments had been used in their entirety across this Level 2 qualification sampled, which had not been amended, each assessment tool was deemed fit for purpose.

5.8 From the assignment briefs and learner work sampled, it was evident that the assessment materials had enabled learners to produce appropriate evidence to meet each awarded criteria to which the assessment related.

5.9 Sampled learner work showed that good accurate personalised feedback, which reflected the quality of the evidence produced for each assessment criteria, had been given to each sampled learner. This had been included on the respective Pearson assessment record sheet proforma completed. Evidence also showed that feedback had also only been given to learners after an appropriate sample of internal verification of assessment decisions had been carried out.

5.10 Sampled learner work and associated documentation illustrated that each unit is assessed by only one Assessor and thus the need for standardisation of one or more Assessors is not required.

5.11 The centre advised that the qualification is delivered purely face-to-face and not via distance learning.

6. Internal verification	
6.1.1 Verification of the amended Authorised Assignment Briefs and centre devised assignment briefs is thorough, planned, recorded and used to enhance future assessment practice	N/A
6.1.2 IV ensured that Pearson Set Assessment(s) are not amended	Yes
6.2 Verification of sampling of assessment decisions is thorough, planned, recorded and used to enhance future assessment practice	Yes
6.3 Verification records are accurate and available for audit	Yes
6.4 Levels 2/3 only – Any resubmission or retake is supported by accurate documentation signed and dated by the Assessor and Lead Internal Verifier	N/A
<p>Your comments:</p> <p>6.1.1 This sample did not include any units where Pearson authorised assignment briefs could be used. The sample solely comprised of units 1, 2, 3 and 4, each of which is assessed via a Pearson Set Assignment. As such, the need for internal verification on amended Authorised Assignment Briefs and centre devised assignment briefs was not necessary.</p> <p>6.1.2 Evidence contained within the sample showed that internal verification processes within the centre had ensured that the Pearson Set Assignment used for each of the four sampled units (1, 2, 3, 4), had not been amended in any way. This was also verbally confirmed by the centre during the remote visit. The centre advised that internal verification is carried out in a reciprocal arrangement by a different Assessor in a neighbouring school.</p> <p>6.2 Evidenced completed internal verification of assessment decisions documentation, making use of an appropriate Pearson proforma, demonstrated that the verification of sampling of assessment decisions is thorough, planned, recorded and used to enhance future assessment practice. For all sampled units (1, 2, 3 and 4), evidence showed that an appropriate sample size of assessment decisions had been reviewed and across the grades awarded by the sole Assessor, each of which was also timely to assessment. As detailed in section 6.1.2 above, all internal verification has been carried out by an Assessor in a neighbouring school.</p> <p>6.3 Fully completed internal verification of assessment decisions documents were supplied for each unit (1, 2, 2 and 4) sampled. These were accurate and included dated physical signatures which both authenticated the internal verification process and showed that the Internal Verifier's feedback comments had been received by the Assessor. All completed documents provided the necessary full audit trail.</p> <p>6.4 The sample of units reviewed, indicated that resubmission opportunities were not given to any learners for the completed assignments for Units 1, 2, 3 and 4. This was also verbally confirmed by the sole Assessor. There was also no evidence of retake opportunities needing to be or actually being given.</p>

<p>Number of Assignment Brief(s) Developed: 1 Number of the Assignment Brief Sampled: 1 SV comments on learner's work sampled: B.P4 - Very good relevant descriptions had been provided by the learner of the purpose of using break-even analysis for the Italian restaurant business given in the Pearson Set Assignment scenario. B.P5 - The learner correctly calculated break-even using given data in the Pearson Set Assignment scenario. B.P6 - The learner also prepared an appropriate and accurate six month cash flow forecast using monthly data also provided in the Pearson Set Assignment scenario. B.P7 - An appropriate outline had been provided by the learner of the purpose and benefit of cash flow forecasting for the same Italian restaurant business. B.M2 - The learner appropriately demonstrated the impact of changing separately both cost and revenue data on the break- even point. B.M3 - The work presented was weaker than for the other assessment criteria reviewed here. Whilst the learner had analysed weak and strong cash flow for the same Italian restaurant business, they focused a lot of their work on what could be done, rather than what the impact of weak and strong cash flow for the business was. There were traces of this, but it was limited. Just agree with the Assessor to award this assessment criteria. Assessment criteria awarded by the assessor: A.P1, A.P2, A.P3, A.M1, B.P4, B.P5, B.P6, B.P7, B.M2, B.M3 Assessment Decision Internally Verified: Yes SV/EE agrees with the assessor's decision: Yes, if no, list the assessment criteria disagreed N/A.</p>
